Disques à Changement Rapide Grain Fin

AO

Oxyde d'Aluminium

Enlèvement ●●●○○

Durée de vie ●●○○○

Abrasif : Oxyde d'Aluminium

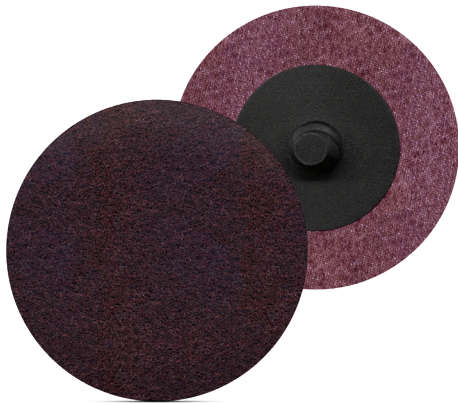

Couleur : Vert

Qualité : Fin / A Très Fin

Caractéristiques : Disques souples d'une grande qualité. Idéal pour le nettoyage des surfaces rouillées ou enlèvement des traces de machines de crayon ou d'ancien revêtement. Ces disques permettent d'obtenir une surface homogène sur des surfaces en aciers, en aciers inoxydables, en alliage de carbone, aluminium et autres alliages.
